EXAM SNIPER EXTENSION v1
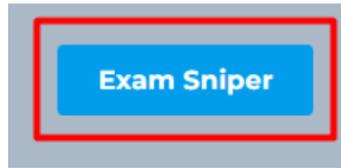

(for pcaa.aspeqexams.com)

- Scans for fully booked exam slots automatically once the scan button is activated.
- After a date and time are selected, continuously monitors that specific fully booked slot and instantly notifies the user when it becomes available.
- Designed to be extremely easy to use, with a clean and intuitive graphical interface.
- Sends notifications both within Google Chrome tab and as desktop notification, along with an audible alarm, when a slot becomes available.
- Compatible only with the Google Chrome desktop browser and requires the browser to remain open with a stable internet connection. Mobile devices and other browsers are not supported yet.
- Real-time monitoring status display on every tab to confirm that monitoring is active.
- Designed specifically for the PCAA exams' booking website.
- If no fully booked slot is detected during the scan, the extension will notify the user.

Installation Instructions

Step 1

Click on "Exam Sniper" button on the main menu of website to download the extension.
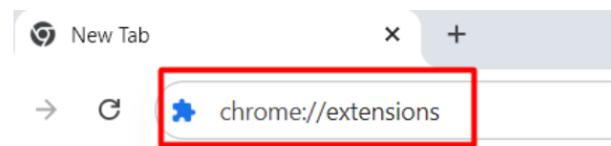

Exam Sniper

Step 2

Extract the downloaded zip file on your computer using WinRAR or any other tool.

Step 3

Usage Instructions

Step 1

Go to "**Step 3 – Select Session**" tab of "Book Exam".

Step 2

On the right side of the search bar, press the icon as shown in the picture and click on the "pin" button to pin the extension.

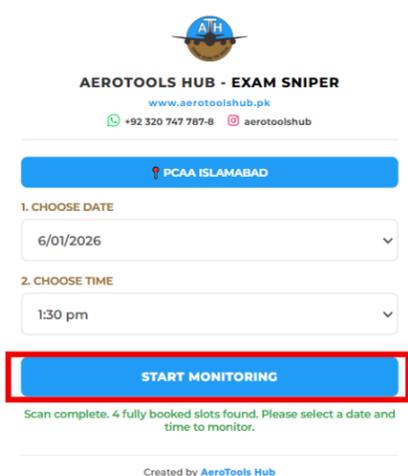

Step 3

Click on the extension icon and then press "**SCAN FOR FULLY BOOKED SLOTS**".

Step 4

Once the scan is complete, select a date and time for a fully booked slot and press "**START MONITORING**".

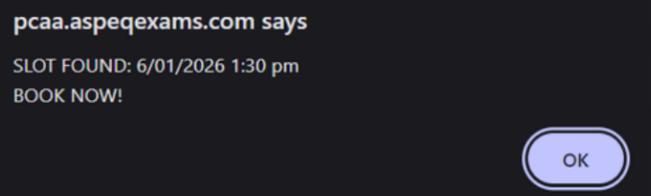

Terms & Conditions

1. *AeroTools Hub does not guarantee successful exam booking and is not responsible for missed or unavailable slots.*

2. *The extension does not perform exam bookings automatically and only assists in monitoring slot availability.*

3. *All booking actions are performed solely by the user.*

4. *AeroTools Hub shall not be held liable for website changes, server downtime, internet problems, browser behavior, or any system-related issues arising from the use of this extension.*

5. *By installing or using this extension, you agree to these terms.*

THE RESULT

After the extension finds that slot, it will notify you with a desktop and browser notification.

Step 5

After pressing OK on the prompt, just sit back and relax, the extension will keep monitoring for the booked slot and notify you whenever it gets available.

*For support, suggestions, or bug reports, users may contact **AeroTools Hub** via WhatsApp (+92 320 747 787-8).*
